PREFACE

Beginning with this issue of the Schedule of Courses, the Office of Training will publish confirmed dates for the next six months and tentative dates for the following six months. Undoubtedly, there will be changes in the second period, but they will be minor. Confirmed dates for the second six months will be issued before January 1971. We hope that publication of dates a year in advance will be of assistance to Training Officers for planning purposes. Note that this Schedule can be inserted in a loose-leaf notebook, which is the format for the projected OTR Catalog of Courses. This catalog should be distributed to all Training Officers within the next few months. It will contain comprehensive descriptions of all OTR Courses as well as most of the component-conducted courses. A few of these component-conducted courses have been included in this Schedule and are identified by Office Symbols in parentheses following the course title.

COURSE DESCRIPTIONS

LANGUAGE SCHOOL

SECRET CIA INTERNAL USE ONLY Approved For Release 2002/08/26: CIA-RDP78-03090A000500050001-0

The OTR Language School provides full time instruction in the following languages: French, Spanish, Italian, Portuguese, Chinese, Japanese, Persian, Turkish, Indonesian, Russian, Serbo-Croatian, and German. Part time instruction is offered in Arabic, Polish, Czech, and Swedish, Courses which are offered at times negotiated with the responsible components are Vietnamese, Thai, Czech, and Greek.

The Language School has a limited competence in ten other languages. The ability to present instruction in these languages is conditioned by the availability of instructors and the nature of the requirements. These ten languages are: Romanian, Danish, Latvian, Azerbaijani, Dutch, Swahili, Lingala, Hebrew, Estonian, Lithuanian.

With the exception of the Before-and-After-Hours Language Training program and certain part-time Russian Courses, all classes are taught at the Washington Building Annex of Arlington Towers. When the Language School cannot handle the requirement, it is normally possible to fulfill the need through external training. Detailed procedural information concerning internal language instruction is contained in the Memorandum for all Training Officers of the Agency, dated 1 April 1969.

INTELLIGENCE SCHOOL

Approved For Release 2002/08/26 : CIA-RDP78-03090A000500050001-0

Advanced Intelligence Seminar (2 weeks - all day) (Replaces the Intelligence Review Course)

For middle and senior level officers (minimum grade GS-12) who have been in the Agency at least five years.

Covers major international trends affecting intelligence; changes in-and problems facing-the intelligence community; recent and projected developments within the Agency to meet current and future Agency responsibilities; major problems of collection, production, coordination and support of intelligence. Student participation in discussions and seminars is stressed. Enrollment limited to 35 (no more than three per office, CS Division, or comparable component). Given in Washington area. No other prerequisites.

CIA Review (1/2 day - morning)

For all employees returning to the U.S. with PCS from overseas.

Covers developments affecting the Agency's organization and mission at the policy, USIB, and Agency levels over the past several years.

Given in Washington area.

No other prerequisites.

(Note: This review includes the security reindoctrination lecture by the Office of Security.)

Geography of Communist China (3 weeks - MWF - all day)

For professional employees who need a working knowledge of the geography of Communist China. A text has been especially compiled for this course incorporating the latest unclassified data. Classified materials used include the Intelligence Map Series to illustrate certain geographical points. This course concentrates on those elements of the natural and cultural environment that can influence the political, economic, military, or foreign relations posture of Communist China. Given in Washington area.

No other prerequisites, although China Familiarization Course is desirable.

10

CIA INTERNAL USE ONLY Approved For Release 2002/08/26: CIA-RDP78-03090A000500050001-0

Geography of the USSR (6 weeks - MWF - all day)

For professional employees who need a working knowledge of the geography of the USSR. Materials used include the best available regular academic texts, Soviet maps and atlases, films and slides--including selected U-2 photos. is given in transliteration and use of Russianlanguage materials where necessary. Classified materials used include the Intelligence Map Series to illustrate certain geographical points. This course concentrates on those elements of the natural and cultural environment that can influence the political, economic, military, or foreign relations posture of the USSR. Given in Washington area. No other prerequisites, although Basic Country Survey: USSR Course is desirable.

Intelligence Briefing (4 weeks - MW - mornings)

For professional employees; preference given to those who have briefing responsibilities. Instruction and practice in techniques of effective intelligence briefing, including discussion of a variety of briefing objectives and problems, preparation and delivery of assigned briefings, and performance critique by instructor and fellow students. At least two of the briefings are video-taped for the purpose of more realistic critique. Special attention is given to platform techniques, audience and occasion analysis, substantive organization, coherence and clarification devices, design and use of briefing notes, use of visual aids in oral presentation, guidelines for answering questions and techniques of team briefing. Assignments may be carried out within the context of a student's field of specialization and responsibility. Students prepare briefings for 5 or 6 sessions. Given in Washington area. No other prerequisites.

Intelligence Production (8 weeks - all day)

For Career Trainees.

Familiarizes students with DDI components, emphasizing particularly the problems of producing finished intelligence. Also stresses the close working relationships between DDI units and other Agency and non-Agency (including both USIB and non-USIB) offices. A course research paper is required, which gives the CT pre-job experience in using Agency reference and intelligence production and facilities. Given in Washington area.

No other prerequisites.

Approved For Release 2002/08/26 : CIA-RDP78-03090A000500050001-0 SECRET

CIA INTERNAL USE ONLY Approved For Release 2002/08/26 : CIA-RDP78-03090A000500050001-0

Intelligence Research Techniques (2 weeks - all day; or 4 weeks - mornings)

For analysts, librarians, reference analysts, and research assistants.

Covers each stage of the research process from the origin of an intelligence research topic to the writing of a skeletal report. Each student works on a research project approved by his supervisor-this is used as a practical exercise. Includes familiarization with repositories of information and the value of collection programs. On request this course can be tailored to the needs of a group from one component. Given in Washington area.

No other prerequisites.

Intelligence Review (See Advanced Intelligence Seminar)

Intelligence Techniques (3 weeks - all day)

For Career Trainees.

Familiarizes students with selected types of intelligence writing and some of the techniques and activities of the intelligence production process. Given in Washington area. No other prerequisites.

Introduction to Intelligence (2 weeks - all day) (Phase I of Intelligence Orientation Course)

For all new professional employees entering on duty and potential professionals. Introduces basic concepts and the importance of U.S. foreign intelligence activities; the structure and responsibilities of the U.S. "intelligence community" and its relationship to the policy levels of Government; and the general responsibilities of the Agency for the collection and production of intelligence. Given in Washington area. No other prerequisites.

Introduction to Map Reading and Imagery Analysis (8 days - spread over 3 weeks - all day)

For professional employees who need to be able to use maps effectively and to do simple photographic interpretation.

Equal emphasis on map reading and photographic interpretation. Other types of imagery analysis are introduced.

Given in Washington area.

No other prerequisites Approved For Release 2002/08/26: CIA-RDP78-03090A000500050001-0

SECRET

SECRET CIA INTERNAL USE ONLY

Approved For Release 2002/08/26: CIA-RDP78-03090A000500050001-0

JCS-DIA Orientation (2 days - all day)

For selected officers and civilians of the JCS, DIA and the military services. A semi-annual orientation on CIA by the Agency's senior officials. Given in Washington area. No other prerequisites.

Orientation for Overseas (2 days - all day)

For employees (and dependents) assigned to overseas duty post for the first time.

Covers: the Agency's mission and functions; security and cover considerations; legal and medical advice; and personal problems of living and working effectively in a foreign environment. Given in Washington area. No other prerequisites.

Orientation to Intelligence (2 weeks - all day)

For Career Trainees.

Covers: national goals and priorities; world problems affecting U.S. interests; intelligence as support to policy; intelligence structure and process.

Given in Washington area. No other prerequisites.

Reading Improvement (5 weeks - twice a week - 2 hours - each day)

For employees whose work effectiveness would be increased by improved reading skills.

Course objectives are: the development of a more effectively organized approach to job-related reading and a significant increase in comprehension, speed, and recall.

Given in various locations in the Washington area for the convenience of participants. Classes are

for the convenience of participants. Classes are limited to 22 to allow for individual instruction and students are expected to practice at home and at work between sessions.

Costs (about \$45 per student) are borne by each sponsoring office.

This course is given under contract by U.S. Department of Agriculture.

CIA INTERNAL USE ONLY Approved For Release 2002/08/26 : CIA-RDP78-03090A000500050001-0

Special Orientation for Agency Representatives Attending Senior Officer Schools (3 days - all day)

Given annually for Agency representatives selected by the TSB for attendance at Senior Officer Schools. Updates significant developments affecting the Agency's activities and its "image"; includes instruction in techniques of briefing and in conducting seminars; provides an opportunity to meet recent graduates of Senior Officer Schools and senior officials of the Agency. Given in Washington area. No other prerequisites.

Writing Workshop (Basic) (4 weeks - T Th - mornings)

For professional employees. (Non-professionals may attend under certain circumstances.)
Covers basic principles of grammar and rhetoric, and elements of sentence construction and paragraph structure.

Given in Washington area. No other prerequisites.

Writing Workshop (Intermediate) (4 weeks - MW - mornings)

For professional employees. (Non-professionals may attend under certain circumstances.)
Covers principles of good writing, including clarity, accuracy, and logic.
Given in Washington area.
Prerequisites: Writing Workshop (Basic) or Writing Workshop pretest.
(Note: Specially tailored writing workshops may be conducted to meet the specific needs of a requesting component.)

SUPPORT SCHOOL

SECRET CIA INTERNAL USE ONLY

Approved For Release 2002/08/26: CIA-RDP78-03090A000500050001-0

Administrative Procedures (3 1/2 or 5 days - all day)

For clerical employees who support the CS at headquarters.

All students attend the first 3 1/2 days for coverage of Agency organization, dispatch and cable procedures, domestic travel and reimbursement vouchers, and operational terminology. CS sponsored students remain the extra 1 1/2 days for coverage of CS records and project procedures. Given at Magazine Building. No other prerequisites.

Advanced Management (Planning) (1 week - Sunday afternoon through Friday)

For all officers, line or staff (GS-13/14), who have a need for better understanding of systematic planning. While not designed for personnel engaged in full-time PPB, they are by no means excluded. Specific methodology for planning, selected techniques used in planning, analysis of different planning styles and overall Agency system for planning, programming, and budgeting. Required precourse reading involves 10 - 15 hours; thus, registrations cannot be accepted later than 2 weeks prior to the scheduled starting date.

25X1A

Given No other prerequisites, although Managerial Grid is recommended.

Clerical Refresher (4 weeks - mornings)

For clerical employees seeking to improve accuracy and to develop speed in either shorthand or type-writing. Separate instruction may be taken in either skill.

Given at Ames Center Building.

No other prerequisites.

Field Finance and Logistics (3 weeks - all day)

For operational support assistants, support officers or secretaries required to maintain financial and property records at small domestic or overseas stations and bases. Emphasis is on the practical skills involved in maintaining Class B or C Financial records and Type II or III Logistical records. Where both are not needed, either the Finance or Logistics block alone may be taken.

Given at Magazine Building.

No other prerequisites although Operations Support is strongly recommended.

Approved For Release 2002/08/26 : CIA-RDP78-03090A000500050001-0

Management (1 week - all day)

For officers in Grades GS-11 through GS-14. Examines current thinking in managerial style as it relates to communication, employee motivation, and work performance. Exercises in team-action problem-solving are used to provide students an opportunity to apply the concepts and principles covered.

Given in Magazine Building. No other prerequisites.

Managerial Grid (1 week - Sunday afternoon through Fridayall day)

For GS-13s and above. Persons who anticipate attending the Midcareer Executive Development Course should not attend this Course.

Grid concept of classifying leadership and managerial styles is examined. Personal managerial styles are analyzed through team and individual exercises designed to permit the understanding of the managerial styles of others to serve as a means of diagnosing problems which prevent effectiveness at any organizational level. Priority given to individuals whose supervisors have completed the Grid.

Given No other prerequisites.

Midcareer Executive Development (6 weeks - all day - 240 hours)

For designated Midcareerists.

Covers the activities of components of the Agency, the U.S. Government in its international setting, and problems of management, also includes the Managerial Grid.

Given and Magazine Building. No other prerequisites.

Senior Management Seminar (Planning) (1 week - Sunday afternoon through Friday - all day)

For GS-15s and above.

Consists of Advanced Management (Planning) Course.

Conducted by consultant.

25X1A Given No other prerequisites, although Grid is recommended.

25X1A

25X1A

Approved For Release 2002/08/26 : CIA-RDP78-03090A000500050001-0

CIA INTERNAL USE ONLY Approved For Release 2002/08/26 : CIA-RDP78-03090A000500050001-0

Supervision (1 week - all day)

For employees in grades GS-5 through GS-10 who have supervisory responsibilities. Explores current thinking on the role of the supervisor in terms of personal behavior, responsibility for subordinates, and organizational and individual needs. Provides materials and a setting experiencing and examining interteam and intrateam skills and activities. Given at Magazine Building. No other prerequisites.

Support Services (3 to 5 weeks, length to be determined)

For Career Trainees assigned to the Support Services. Acquaints students with organization and mission of various Support Services components. Although field activities are discussed, emphasis is on training for Headquarters assignments. Includes the Managerial Grid and three-day ADP Orientation courses. Given at Magazine Building. No other prerequisites.

SECRET CIA INTERNAL USE ONLY Approved For Release 2002/08/26 : CIA-RDP78-03090A000500050001-0

Basic Country Survey: USSR (2 weeks - all day)

For professional employees whose work requires a basic and comprehensive knowledge of the Soviet Union. A brief study of Tsarist Russia and developments since the Communist seizure of power. Given in Washington area. No other prerequisites.

China Familiarization (1 week - all day)

For professional employees.
Covers survey of mainland China's geography, history, economic factors, and its role in foreign affairs.
Provides introduction to the Chinese language, including pronunciation.
Given in Washington area.
No other prerequisites.

Communist Party Organization and Operations (3 weeks - morning)

For professional employees.
Covers organization and activities of communist parties, with emphasis placed on those in countries in which they are not dominant.
Given in Washington area.
Prerequisites: Introduction to Communism or equivalent in headquarters or field experience.

Communist Target: A Survey (3 weeks - all day)

For Career Trainees.
The historical development of the USSR and Communist China is reviewed, together with an examination of the doctrine, organization, and operations of the communist movement throughout the world.
Given in Washington area.
No other prerequisites.

For all new professional employees entering on duty and potential professionals.

Covers historical development of the USSR and Communist China and the doctrine, organization and operations of the Communist movement.

Given in Washington area.

No other prerequisites.

SECRET CIA INTERNAL USE ONLY

Approved For Release 2002/08/26: CIA-RDP78-03090A000500050001-0

ADP Orientation (3 days - full time)

For the student who is unfamiliar with data processing. The course is an introduction to the basic objectives, phases and problems in automating a particular system. Feasibility and design considerations, implementation steps and considerations, and problems encountered in these stages are outlined in a general way. Requisites: None

Enrollment Deadline: Two weeks before each scheduled presentation. Applications should be submitted to the Office of Training through normal office channels. Location: Magazine Building

ALC Macro Writing (1 week - full time)

Students are trained in writing assembly language macros for application programs. Examples are used to illustrate macro instruction statements, use of macro library, levels of macro instructions, use of conditional assembly instructions, and system variable symbols. The time-saving concepts of macros are demonstrated.

Requisites: Basic knowledge of ALC.

Enrollment Deadline: Applications should be submitted to the Office of Training through regular channels.

Given in Washington area.

APL/360 (5 afternoons - part time)

This course is intended to provide an introduction to APL/360, a terminal-oriented system, and to the APL programming language. The mechanics of using the system and writing effective programs over a wide range of applications are covered. The contents of the course include:

- Communicating with the computer
- Arithmetic operations
- Creating and modifying subroutines
- System commands
- Vector and array processing
- Function aspects
- Program management and libraries

Requisites: None, except current or near future need to use the system.

Enrollment Deadline: Three weeks before start of the course. Applications should be submitted to the Office of Training through regular office channels.

Given in Washington area.

29

CIA INTERNAL USE ONLY Approved For Release 2002/08/26 : CIA-RDP78-03090A000500050001-0

Basic ADEPT Course (15 weeks - full time)

The basic ADEPT program is designed to train an individual for a full time programming position. This course includes the following:

- A. Introduction to Computers. Students are oriented to fundamental aspects of computers such as the uses, internal operation, basic instructions and arithmetic of computers.
- B. Introduction to Problem-Oriented-Language. In addition to providing the fundamentals of a problem-oriented-language, PL/1, particular emphasis is placed on the organization of a programmed system.
- C. Introduction to System/360 Hardware. System/360 hardware characteristics are covered in detail; data and instruction formats, channel concepts, interrupt and PSW mechanics are included as key topics.
- D. Introduction to Assembly Language. In addition to learning the assembly language coding instruction set, the student is provided with a knowledge of ALC-OS interface, use of data management macros, and I/O mechanics.
- E. Introduction to Operating System.
 A detailed instruction is presented on the basic components of Operating System/360:

Job Management Task Management Data Management

F. EDP Projects and Problems. Students are assigned, at both the individual and group level, EDP problems which in turn have to be flow-charted, programmed, tested, and documented in complete form.

Enrollment Deadline: Five weeks prior to start of the course. Due to the expense and space limitations, approval by the appropriate Directorate Information Processing Coordinator (IPC) is required.

Given in Washington area.

SECRET CIA INTERNAL USE ONLY

Approved For Release 2002/08/26: CIA-RDP78-03090A000500050001-0

FORTRAN IV Course (10 mornings - part time)

Students are trained in all aspects of the FORTRAN IV programming language. Some of the topics covered are: constants, variables, arithmetic expressions, looping instructions, input/output instructions, format statements and subroutines. While most of the time is spent using the FORTRAN compiler, the sessions include some use of the WATFOR compiler, a FORTRAN-like compiler. Examples of use as well as exercises are presented.

Requisites: Enrollees should have previous programming experience.

Enrollment Deadline: Five weeks prior to start of the class. Applications should be submitted to the Office of Training through normal office channels.

Given in Washington area.

Mathematics for ADP Systems Analysts

Mathematics is playing an expanding role in the management decision-making process; however, the ADP systems analyst does not need to be a mathematician. In an effort to provide the systems analyst with a better understanding of problems which involve mathematical theories, the Office of Computer Services is offering, through a contract with the General Electric Company, the Mathematics for Systems Analysts series which is divided into four (4) one-week sessions:

- 1. Basic Mathematics
- 2. Advanced Methods and Models
- 3. Statistical Inference
- 4. Probabilistic Models

The first two courses deal primarily with the kind of mathematics used to analyze or describe situations which are determinate, i.e., where questions of risk or uncertainty are not raised. Other problems must be viewed as comprised, at least in part, of random effects which introduce uncertainty into some or all measurements. The last two courses are devoted to methods pertinent to this so-called stochastic view. Requisites: This series is intended for systems analysts who have had programming experience, but lack extensive mathematical backgrounds. Two or more years of Agency experience are also required. Enrollment Deadline: 5 January 1970 for the complete series.

Location: To be announced.

Cost: The cost, \$1,000.00 per student, is to be charged to the student's office. Submit Form 136 through Directorate Information Processing Coordinator to OTR/ISS/AIR, Room 835, 1000 N. Glebe Road. Further Details: Call

Approved For Release 2002/08/26: CIA-RDP78-03090A000500050001-0

Modified ADEPT Course (5 weeks - full time)

The Modified ADEPT program is intended to serve programmer analysts whose experience has been with systems other than IBM/360. The main topics covered in this course are:

- A. System/360 Hardware. Hexadecimal arithmetic, data and instruction formats, channel concepts, interrupt and PSW mechanics are presented in detail.
- B. Assembly Language Coding.
 The student is instructed in the use of the assembly language coding instruction set,
 ALC-OS capabilities, data management macros, as well as advanced techniques such as macro writing.
- C. Operating System. In addition to a detailed presentation on Job, Task, and Data Management concepts, other system features are covered such as User Libraries and Utilities.
- D. System Design Aspects and System/360. The programming management problems that can appear in an effort using the above facilities and their associated solutions are covered.

Requisites: Previous programming experience. Enrollment Deadline: Four weeks before start of class. Due to the expense and space limitations, IPC approval is required. Given in Washington area.

32

CIA INTERNAL USE ONLY Approved For Release 2002/08/26 : CIA-RDP78-03090A000500050001-0

Operating System/360 (10 mornings - part time)

Job, Task, and Data Management concepts and Operating System/360 features are presented. The main topics for this course are:

A. Concepts and Facilities. OS/360 system design and philosophy of the system.

B. Job Management.

Job Management routines and the associated Job Control Language are presented to the student.

C. Linkage Editor Facilities.
The capabilities of the linkage editor in conjunction with the many user programs are explained.

D. Program Design.

A four stage evolution of a program using the above program facilities is demonstrated. E. Access Methods.

The various access methods, such as sequential, indexed sequential, direct, and partitioned, and their use, such as queued or basic, are presented in detail.

F. Debugging.

Debugging techniques as they are related to above subjects are presented.

Requisites: Programming experience Enrollment Deadline: Two weeks prior to start of the course. Applications should be submitted to the Office of Training through normal office channels.

Given in Washington area.

Programming Language/One (1 week - full time)

The student is trained in the complete set of PL/l facilities. Topics covered are: program definition, assignment and control statements, stream and record I/O statements, array processing, built-in functions and on-conditions, list processing, macro processing and asynchronous processing. Programs that have been written in PL/l are also presented.

Requisites: Programming experience.

Enrollment Deadline: Four weeks before start of class. Applications should be submitted to the Office of Training through normal office channels. Given in Washington area.

SECRET CIA INTERNAL USE ONLY Approved For Release 2002/08/26: CIA-RDP78-03090A000500050001-0

PL/1 Macro Writing Course (5 mornings - part time)

PL/1 Compile-Time Facilities are presented in detail. Practical application of the macro facilities is shown with the use of a number of examples.

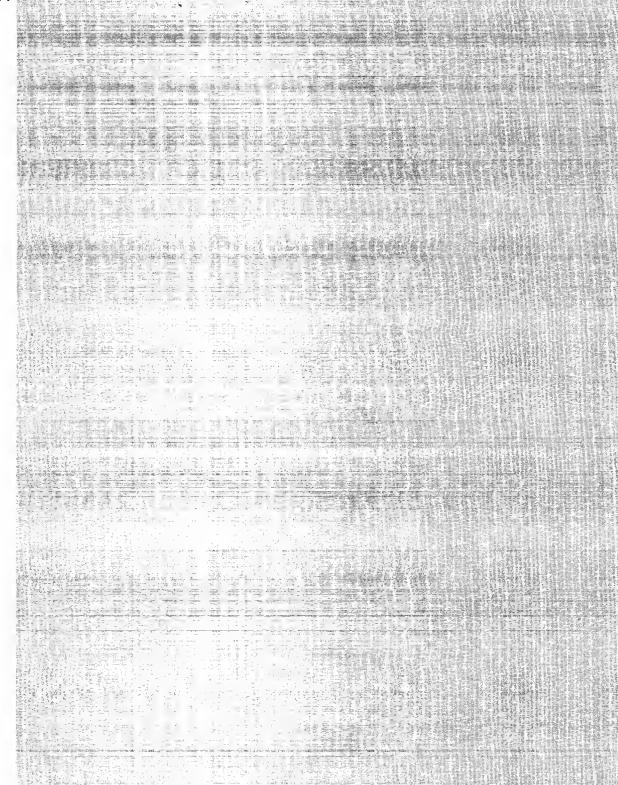

Requisites: Basic PL/l knowledge. Enrollment Deadline: Three weeks before start of the course. Applications should be submitted to the Office of Training through regular office channels.

Given in Washington area.

Budget Process Course (1 week - 1/2 days Monday through Friday)

For those directly involved in the budget formulation and execution phases of Agency financial management. The course will provide an understanding of the purposes of Federal budgeting, detailed instruction in the techniques of budget formulation and execution with special emphasis on Agency forms and procedures, and the interrelationship of programming, budgeting and accounting activities.

Given in Washington area.

No other prerequisites.

VIETNAM

Vietnam Orientation Course (4 weeks - all day)

All personnel scheduled for assignment to Vietnam are required to take this course. The Orientation Course covers an area study of Vietnam which includes government, history, geography, religion, military, police, customs, culture, language training, and other aspects of Vietnamese life, attitudes and values. Also included in the course is Vietnam Station organization, which provides a familiarization of all Agency programs and missions; Station organization; Station policy, and the Station support programs. This portion of the course is given in the Washington area and

REQUEST FOR INTERNAL TRAINING Form 73

A revised Form 73 "Request for Internal Training" was made available in 1966, and Training Officers are requested to use this edition of the form, on which most blocks are self-explanatory. A model of the form is reproduced on page 39 for your convenience and noted below are several items which require careful and concise completion.

Item 1. The name appearing here is normally that used on all official records. If, for security reasons, an individual is to take the course under another name, it is to be entered here. The employee serial number should be provided in this block.

Item 4. The original EOD is used here, not an EOD resulting from a return from overseas, from a transfer between Agency elements, or from some other administrative action. This information has significance because admission to many OTR courses depends on total length of service.

Item 11. (Formerly Item 8) Special care is to be given in filling out this block. OTR cannot provide appropriate training for students without at least a general picture of the experience of the applicant plus an accurate description of his current or projected assignment. The information serves a twofold purpose. OTR uses it to determine the

CIA INTERNAL USE ONLY

Approved For Release 2002/08/26: CIA-RDP78-03090A000500050001-0

qualifications and priority status of the applicant; instructors use this information to mold their courses to the needs and experience of the students. Much valuable time is lost if instructors must wait until the first day of the course to obtain this information from the students themselves. Although all Training Officers should see that adequate detail is provided in this block, it is essential that CS Training Officers particularly do so for operations courses.

- Item 12. This information should be supplied.
- Item 14. This date, estimated or otherwise, has a bearing on priority of admission to some OTR courses. It should be filled in whenever applicable.
- Item 15 and 16. Copy Number 2 (pink), the instructor's copy, must be an exact duplicate of the original, also carrying the required signature. The supervisor's name should appear in typewritten form along with the signature.
- Item 18. Although the reverse side of the form is for OTR's use, this block may be used if, for example, Item 11 has to be continued or if any qualifying comments will further assist OTR/ISS/AIR or the instructors.

REQUEST FOR EXTERNAL TRAINING Form 136

The Office of Training has received many inquiries on how best to complete the Form 136 (Request for Training at a Non-Agency Facility). We hope the following will be of assistance in answering these questions. A facsimile of Form 136 appears on page 42.

In addition to being a request for training, the Form 136 also serves as a contract for the expenditure of funds, a request for travel order (where appropriate), a request for security approval, and the input document for the computer.

Items 3 - 15 in the sample show the correct form for completing these blocks. Proper completion of these blocks facilitates processing the request and decreases time-consuming corrections.

In the past, occasionally the information supplied in items 23 through 25 have not been thorough. Item 23 should be as complete and accurate as possible (reference to course announcement or brochure would be helpful); item 24 should show the facility providing the training, and item 25 is the actual location (e.g. Boston) of the training site.

Description of course, <u>item 26</u>, should be a repetition of the facility's course description (if available) in sufficient detail to permit matching the training goals in item 30.

CIA INTERNAL USE ONLY

Approved For Release 2002/08/26: CIA-RDP78-03090A000500050001-0

Item 30 should be a specific statement of objectives. In addition, it should provide a justification of the training requested and relate the employee's job responsibilities to the goals. It is often possible on the basis of information given here for the Office of Training to suggest an alternate course; in some cases, a less expensive one, or one which might better satisfy the goal.

Item 31 must be completed in all cases, whether cover is involved or not. "Has Cover" refers only to domestic cover, not operational cover; "will use cover for this training" refers to how the student will be enrolled. In any case, if the student either has cover or needs cover for the requested training, the Form 136 must be forwarded to the Central Cover Staff prior to submission to the Office of Training.

If any questions arise concerning any item in the Form 136, please call the Admissions, Information and Records Branch, extension
